

# HR Insight

Your Customized Web site  
Provided by:

**NORTON**  
HEALTHCARE

*HR Insight is the internet application for executives committed to the enhancement of human performance, workforce productivity, and corporate profitability.*

## HR Insight Includes:

### Workforce Health Profile

A “snapshot” of the health of your workforce based on information provided by your employees.

### Potential Health Claims Analysis

This component is intended to identify the specific medical conditions that represent your greatest risk of financial exposure as a result of the health condition of your employees.

### Potential Claims Savings by Medical Category

Identifies specific health risks present in your workforce that represent the best opportunity for savings.

### Workforce Modeling

Identifies several modifiable health characteristics that, if left untreated, may result in increased health claims.

*This tool allows you to “remodel” the health characteristics of your workforce to determine how much you can save annually in reduced claims and enhanced productivity by achieving a healthier workforce.*
